Peugeot 308

VIN: VF3EJEMPL00000001 Year: 2019

Engine: 1.5 BlueHdi 130

OBD checks from this session

Faults

2 faults in the history.

Engine, P2002**confirmed**

Particulate filter: efficiency below the limit, it is not holding back soot as it should. It is usually a saturated or cracked filter, or regenerations that never finish. Check the regeneration history first before thinking about replacing the filter.

Engine, P0401**confirmed**

EGR: insufficient flow, the valve is not opening as much as it should. It is almost always stuck with carbon build up. Check the valve and its ducts first before thinking about replacing it.

Airbag**Not answering****Odometer**

Instrument cluster	98,214 km
Engine	98,201 km
Gearbox	98,190 km
ABS	98,206 km

Inspection monitors**7 of 8 complete**

Misfires	Complete
Fuel system	Complete
Components	Complete
NMHC catalyst	Complete
NOx aftertreatment (SCR)	Pending
Exhaust gas sensor	Complete
Particulate filter	Complete
Exhaust gas recirculation and variable timing	Complete

Reading of the control units at this moment. It is neither an appraisal nor a guarantee.
